Company profile

About Us

We are a secondary generation company, based in South Bulgaria , Petrich.

We own a production department, where we **produce** plastic industrial accessories, for the following sectors:

- Tourism industry
- Livestock industry
- Energy sector
- Automotive industry
- Hygiene sector

We also own a machine shop where we design , develop and construct our molds for plastics and metallic constructions.

We offer

- High quality plastic products.
- Competitive prices , because we are producers, not second-hand dealers or importers.
- Great experience in design and construction, because we are a second generation company.
