

About us

We are a secondary generation company, based in South Bulgaria , Petrich.
We own a production department, where we produce plastic industrial accessories, for the following industry sectors:

- House construction industry
- Tourism industry
- Livestock industry
- Energy sector industry
- Automotive industry
- Hygiene sector

We also own a machine shop where we design , develop and construct molds for plastics and various metallic constructions.

We offer

- High standard services to our clients.
- High quality products.
- Competitive prices , because we are producers, not second-hand dealers or importers.
- Great experience in design and construction, because we are a second generation company.

We are interesting in beginning a cooperation with you.
Please do not hesitate contact us for more information or details about our products.

We will happily respond to your questions!
